

LAXATINE.

THE KIND YOU HAVE ALWAYS bought has borne the signature of the Western Chemical Co. of Chicago, Ill., for years. Allow no one to deceive you with counterfeits. Imitations and "just as goods" are but experiments, and endanger the health of children.

What is Laxatine?

LAXATINE IS NOTHING BUT THE FINEST CASTOR OIL, with its objectionable taste removed by our new process. LAXATINE is as pleasant to take as honey. Children like it. No trouble to get them to take it. It contains neither opium, morphine, nor other narcotic substances. It relieves teething troubles, cures constipation and flatulency; it assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.—The Children's Panacea—the Mothers' Friend.

Prepared only by the Western Chemical Co., Chicago, Ills.

WORK ON SEWERS

List of Streets Already Completed.

About One Hundred Portuguese and Hawaiians Employed Under Skilled Foremen.

Anybody who has any doubts regarding the construction of Honolulu's sewerage system should take a trip about the city and have those forebodings dispelled.

The work is going forward with great rapidity. A block of a street is torn up in the morning and unless unlooked-for obstacles are encountered before many days it is thrown open again with the sewer pipe reposing under several feet of earth.

At present there are over a hundred men at work, composed mostly of Portuguese and natives. It is the intention of Mr. Vincent of the firm of Vincent & Belser, who have the construction contract, to employ these two classes of laborers altogether if possible. The overseers and foremen are all skilled artisans who came from the Coast with Mr. Vincent.

Engineers Edwards and Knowlton, who were left here by Rudolph Herink, have completed all the plans. They show to a nicety every elevation and peculiarity along the line of construction.

So far the obstacles encountered have all been anticipated. Likeliest street had the honor of being the one where the first shovelful of earth was turned in the work of actual construction. Up to last evening the following sections had been covered:

Likeliest street, Hotel, between Punchbowl and Miller, Miller, Alapai from King to Beretania, Mission Lane, Kawaiahao Lane, Queen between Mission Lane and Punchbowl, and Millani.

The main difficulty has been encountered on Queen street between Richard and Punchbowl, where the men are now working. Water was found at a depth of about seven feet, which is the high-tide level at that point. It has been pouring in all along the line during the last few days, keeping gangs of men constantly employed at the pumps. Two lines of pipe will be laid along the water section. The lower will be used to drain off the water. This will permit the regular sewerage line to be laid without difficulty. This has been the obstacle met with, although it could hardly be classed as that since it was fully anticipated and provided for by Mr. Vincent.
